	Circle U (Orthodox Union)	The Union of Orthodox Jewish Congregations of America (the "Orthodox Union") is the sole and exclusive owner of the OU Kosher Logo certification mark, a federally and internationally registered trademark for kosher certification.
	D (Dairy Product)	The D (Dairy Product) certification signifies that a product is kosher certified and contains a dairy ingredient(s).
	Pareve (Kosher Vegetarian)	The Pareve certification signifies that a product is kosher, meaning it does not contain milk or meat ingredients.
	Chicago Rabbinical Council	The Chicago Rabbinical Council (cRc) Kosher certification is a not-for-profit organization offering a wide variety of Jewish services including kosher product supervision and kosher certification (kosher approval for products). Products with this certification meet Kosher standards.
	Parev (Kosher Vegetarian)	The Pareve certification signifies that a product is kosher, meaning it does not contain milk or meat ingredients.
	Parve (Kosher Vegetarian)	The Pareve certification signifies that a product is kosher, meaning it does not contain milk or meat ingredients.
	Kosher Supervision America	The KSA, Kosher Supervision of America, symbol is a firm guarantee that the products bearing the symbol are in full compliance with kosher standards.
	USDA Organic	The USDA Organic certification signifies that the product meets organic standards. To be organic, the use of most synthetic pesticides and fertilizers, radiation, artificial preservatives, flavors and dyes, antibiotics and growth hormones is prohibited. Additionally the product may not contain genetically modified organisms (GMOs).

	Certified Organic Quality Assurance International	The Quality Assurance International (QAI) certification signifies that the product meets organic standards. To be organic, the use of most synthetic pesticides and fertilizers, radiation, artificial preservatives, flavors and dyes, antibiotics and growth hormones is prohibited. Additionally, the product may not contain genetically modified organisms (GMOs). QAI is a member of the NSF International family of companies.
	Registered Material for use in Organic Agriculture	The Organic Agriculture certification signifies that the product meets organic standards. To be organic, the use of most synthetic pesticides and fertilizers, radiation, artificial preservatives, flavors and dyes, antibiotics and growth hormones is prohibited. Additionally, the product may not contain genetically modified organisms (GMOs).
	Processor Certified Organic Washington State	The Washington State Department of Agriculture (WSDA) certification signifies that the product meets organic standards. To be organic, the use of most synthetic pesticides and fertilizers, radiation, artificial preservatives, flavors and dyes, antibiotics and growth hormones is prohibited. Additionally, the product may not contain genetically modified organisms (GMOs).
	Quality Certification Services	The Quality Certification Services (QCS) is a USDA and ISO/IEC 17065 accredited certification program that offers a wide array of certification options for farming, livestock, packing, handling, processing, and wild harvest operations.
	Certified Organic CCOF	CCOF is a nonprofit organization that advances organic agriculture through organic certification, education, advocacy, and promotion. CCOF certifies farms, livestock operations, processors, retailers, restaurants, and private labels in order to ensure organic integrity from farm to fork.
	Certified Organic OCIA	The Organic Crop Improvement Association (OCIA) certification signifies that the product meets organic standards. To be organic, the use of most synthetic pesticides and fertilizers, radiation, artificial preservatives, flavors and dyes, antibiotics and growth hormones is prohibited. Additionally, the product may not contain genetically modified organisms (GMOs).
	Vermont Certified Organic	The Vermont Organic Farmers (VOF) certification signifies that the product meets organic standards. To be organic, the use of most synthetic pesticides and fertilizers, radiation, artificial preservatives, flavors and dyes, antibiotics and growth hormones is prohibited. Additionally, the product may not contain genetically modified organisms (GMOs).
	Oregon Tilth	The Oregon Tilth certification signifies that the product meets organic standards. To be organic, the use of most synthetic pesticides and fertilizers, radiation, artificial preservatives, flavors and dyes, antibiotics and growth hormones is prohibited. Additionally, the product may not contain genetically modified organisms (GMOs).
	OTCO	The Oregon Tilth certification signifies that the product meets organic standards. To be organic, the use of most synthetic pesticides and fertilizers, radiation, artificial preservatives, flavors and dyes, antibiotics and growth hormones is prohibited. Additionally, the product may not contain genetically modified organisms (GMOs).
	Whole Grain	The Whole Grain Stamp signifies that a product contains at least 8g (a half serving) of whole grains, but can also include some refined grains. The number within the stamp signifies how many grams of whole grain ingredients are in a serving of the product.
	100% Whole Grain	The 100% Whole Grain Stamp signifies that the products grain ingredients are whole grain. There is a minimum of 16g (a full serving) of whole grains per labeled serving for products using this stamp. Specifically, the number within the stamp signifies how many grams of whole grain ingredients are in a serving of the product.

	Gluten Free GFCO	Established in 2005, The Gluten-Free Certification Organization (GFCO), an industry program of the Gluten Intolerance Group (GIG), is dedicated to providing certification services to producers of gluten free products using quality assessment and control measures throughout production, in order to provide assurance to consumers of the safety of their foods. The GFCO is an industry program of the Gluten Intolerance Group, a 501c3 nonprofit that helps people with celiac disease and other gluten-related disorders live healthy lives.
	Non GMO Project (min)	The Non GMO Project Verified certification signifies that a product is made with Non-GMO ingredients. The Non-GMO Project Verified remains the market leader for GMO avoidance and one of the fastest growing labels in the retail sector.
	Non GMO Project Verified	The Non GMO Project Verified certification signifies that a product is made with Non-GMO ingredients. The Non-GMO Project Verified remains the market leader for GMO avoidance and one of the fastest growing labels in the retail sector.
	Non GMO Project Verified www.ngoproject.org	The Non GMO Project Verified certification signifies that a product is made with Non-GMO ingredients. The Non-GMO Project Verified remains the market leader for GMO avoidance and one of the fastest growing labels in the retail sector.
	Vegetarian Movement	The Vegetarian Movement certification signifies that a product meets vegetarian requirements (i.e. does not contain meat).
	Certified Vegan vegan.org	Certified Vegan logo is administered by Vegan Action, for products that do not contain animal products or byproducts and that have not been tested on animals.
	Certified Fair Trade	The Certified Fair Trade certification protects the workers producing the food to ensure that they are granted fair wages and working conditions. This certification is targeted towards good produced in developing countries.
	Good Manufacturing Practices	Good Manufacturing Practice (GMP) A GMP is a system for ensuring that products are consistently produced and controlled according to quality standards. It is designed to minimize the risks involved in any pharmaceutical production that cannot be eliminated through testing the final product.
	NSF - Certified for Sport	To meet the growing demands of athletes, coaches and all those concerned about banned substances in sports supplements, NSF International created the NSF Certified for Sport® Program. This specially designed NSF program is a focused solution designed to minimize the risk that a dietary supplement or sports nutrition product contains banned substances.
	Halal	The HAB certification is approved by the Halal Authority Board (HAB), which offers a worldwide benchmark for Halal certification for the food industry. The HAB Worldwide Standard aims to ensure uniformity in Halal regulation and certification across the globe. The Standard sets out guidelines on all aspects of production to ensure the Halal integrity of products, including food health and safety regulations, storage, delivery and cleaning and cleansing which takes into account scientific developments to prevent contamination from pork and other unacceptable derivatives.
	Glycemic Index Tested	Foods that have been glycemic index tested at an accredited laboratory and they must also meet strict nutrient criteria for kilojoules, saturated fat and sodium, and where appropriate, fibre and calcium.

	Leaping Bunny (Cruelty Free)	The Humane Bunny Certification represents eight national animal protection groups banded together to form the Coalition for Consumer Information on Cosmetics (CCIC). The CCIC promotes "cruelty-free" and works with companies to help make shopping for animal-friendly products easier and more trustworthy.
	Natural Products Association - Certified Natural	To protect and equip consumers to maximize their well being, NPA developed the Natural Standard and Certification for Personal Care Products, a set of guidelines that dictate whether a product can be deemed truly "natural." The standard encompasses all cosmetic personal care products regulated and defined by the FDA.
	International Aloe Science Council Certification	The International Aloe Science Council Certification demonstrates that a company has passed a professional inspection and audit for aloe vera processing, and that the quality and purity of aloe vera has been scientifically validated and certified by an independent group of professionals.
	Rainforest Alliance Certified	Products bearing the Rainforest Alliance Certified™ seal originate on or for which ingredients are sourced from - Rainforest Alliance Certified farms or forests that are Forest Stewardship Council® certified by the Rainforest Alliance. These farms and forests are managed according to rigorous environmental, social and economic criteria designed to conserve wildlife; safeguard soils and waterways; and help protect workers, their families and local communities.
	UTZ Certified	UTZ certification shows consumers that products have been sourced, from farm to shop shelf, in a sustainable manner. To become certified, all UTZ suppliers have to follow a Code of Conduct, which offers expert guidance on better farming methods, working conditions and care for nature.
	ISO Quality	ISO certification guarantees that a manufacturing process meets or exceeds all of the requirements pertaining to standardization and quality assurance. This certification is issued by the International Organization for Standardization.
	Paleo Friendly	The Paleo Friendly label was developed and trademarked by The Paleo Foundation Inc. to identify food products that meet the standards of the Paleo Diet.
	Real Dairy Symbol	The Real Seal is a certification that indicates dairy products made from U.S. produced cow's milk processed in a U.S. facility and conform to standards for milk and dairy products.
	Gluten Free (red triangle)	The Gluten Free (red triangle) certification includes all products that have published the Gluten Free (red triangle) stamp on their package and are certified to be free of gluten.
	HACCP	HACCP is a management system in which food safety is addressed through the analysis and control of biological, chemical, and physical hazards from raw material production, procurement and handling, to manufacturing, distribution and consumption of the finished product.
	Glycemic Index Foundation	The Glycemic Index Foundation certification includes all products that have published the Glycemic Index Foundation stamp on their package.
	Glycemic Research Institute	The Glycemic Research Institute certification includes all products that have published the Glycemic Research Institute stamp on their package.
	GI Labs Tested	The GI Labs Tested certification includes all products that have published the GI Labs Tested stamp on their package.

	GMO-Guard from Natural Food Certifiers	The GMO-Guard from Natural Food Certifiers certification includes all products that have published the GMO-Guard from Natural Food Certifiers stamp on their package.
	GOED - Omega-3's	The GOED certification includes all products that have published the GOED stamp on their package.
	Marine Stewardship Council	The MSC is the world's leading certification and eco-labeling program for sustainable seafood. Products with this certification are considered to be sourced from seafood following sustainable practices.
	FSC	The Forest Stewardship Council (FSC) certification ensures that products come from responsibly managed forests that provide environmental, social and economic benefits. The FSC Principles and Criteria provide a foundation for all forest management standards globally, including the FSC US National Standard that guides forest management certifications in the US.
	SCS	The SCS certification includes all products that have published the SCS stamp on their package.
	Vegetarian symbol of India (green)	The SCS certification includes all products that have published the SCS stamp on their package.
	Non-Vegetarian symbol of India (brown)	Non-Vegetarian symbol of India attribute includes all products that present a Non-Vegetarian symbol of India logo. The initial capture of the certification started on 6/23/2015.
	Dolphin Safe	The Earth Island Dolphin Safe certification on the label represents a tuna companies pledge to abide by the Earth Island international Dolphin Safe tuna standards of no encirclement of dolphins or other marine mammals during an entire fishing trip, no accidental deaths or serious injuries of any dolphins, and no use of drift gill nets.
	Live & Active Cultures	The Live & Active Cultures certification attribute includes all product that have published the Live & Active seal by National Yogurt Association on their packaging.
	American Heart Association Certified	The American Heart Association certification includes all products that have published the Heart-Check Food Certification Program symbol on their packaging.
	Gluten Free (red circle)	The Gluten Free (red circle) certification attribute includes all products that have published the Gluten Free symbol by Bob's Red Mill.
	Gluten Free	The CSA Recognition Seal represents a critical review of a company's manufacturing practices to reduce risk for celiac and gluten sensitive customer indicates the company's commitment to communicating product information to the consumer.
	Gluten Free G	The Gluten Free certification attribute includes all products that have published the Gluten Free symbol by Trader Joe's.

	KOF-K	KOF-K Kosher Supervision is one of the premier kosher certifying agencies in the world. Those products and services meeting the strictest standards of kashrus (kosher law) are granted permission to display the KOF-F K symbol, which is protected under U.S. Federal and international law against unauthorized use. When consumers see the KOF-K kosher symbol on a product, they know they are buying food that has been certified to meet the highest standards of kashrus.
	California Certified Organic Growers	CCOF is a nonprofit organization that advances organic agriculture through organic certification, education, advocacy, and promotion. CCOF certifies farms, livestock operations, processors, retailers, restaurants, and private labels in order to ensure organic integrity from farm to fork.
	Please Recycle	This logo can be found on products that have a Please Recycle symbol on its packaging.
	Animal Welfare Approved	The Animal Welfare Approved certification indicates the product passed the Animal Welfare Approved (AWA) program's inspection and meets the highest animal welfare and environmental standards.
	Certified Humane Organization	Humane Farm Animal Care (HFAC) is the leading non-profit certification organization dedicated to improving the lives of farm animals in food production from birth through slaughter. The goal of the program is to improve the lives of farm animals by driving consumer demand for kinder and more responsible farm animal practices. When you see the Certified Humane Raised and Handled label on a product you can be assured that the food products have come from facilities that meet precise, objective standards for farm animal treatment.
	Humane Heartland	The Humane Heartland certification promotes the humane treatment of farm animals. Products that bear this logo meet the science-based animal welfare standards of the American Humane Association.
	United Egg Producers Certified	United Egg Producers Certified attribute includes all products that present a United Egg Producers Certified logo. The initial capture of the certification started on 6/23/2015.
	Food Alliance Certified	Food Alliance Certified attribute includes all products that present a Food Alliance Certified logo. The initial capture of the certification started on 6/23/2015.
	Fair Trade USA	The FairTrade USA certification indicates that a company must buy from certified farms and organizations, pay Fair Trade prices and premiums and submit to rigorous supply chain audits. This process entails a high level of transparency and traceability in their global supply chains.
	Fair Trade International	FairTrade International is a global organization that works to secure better deals for farmers and workers by coordinating fairtrade labeling at an international level. FairTrade International supports producers around the world to develop global fairtrade strategies in order to promote trade justice.
	Certified Naturally Grown	Certified Naturally Grown attribute includes all products that present a Certified Naturally Grown logo. The initial capture of the certification started on 6/23/2015.
	GREEN-E ORG	GREEN-E ORG attribute includes all products that present a GREEN-E ORG logo. The initial capture of the certification started on 6/23/2015.

	Vegan Natural Food Certifiers	Vegan Natural Food Certifiers attribute includes all products that present a Vegan Natural Food Certifiers logo. The initial capture of the certification started on 6/23/2015.
	Edward & Sons Trading Company, Inc.	Edward & Sons Trading Company attribute includes all products that present a Edward & Sons Trading Company Vegan logo. The initial capture of the certification started on 6/23/2015.
	Biodynamic Certification	The Biodynamic Certified includes all products that have published the Demeter USA Certified Biodynamic Certification on their package.
	Rabbinical Council of New England	The Rabbinical Council of New England certification signifies that the product meets the standards for being kosher.
	Half-Moon K	The Half Moon Kosher certification is completed through The Kosher Overseers Association of America (KOA/OA). This certification means that it meets Kosher standards.
	Certified B Corporation	Certified B Corporations voluntarily meet the highest standards of verified, overall social and environmental performance, public transparency, and legal accountability. B Corps are certified by the nonprofit organization B Lab.
	Celiac Sprue Association	The Celiac Support Association certification represents a company's manufacturing practices to reduce the risk of allergen contamination for celiac and gluten sensitive customers. Products with this certification are tested using the most sensitive validated testing method to ensure it's gluten free status. This recognition seal also indicates the company's commitment to communicating product information to the consumer.
	Certified Fair Labor	The Fair Labor Association combines the efforts of business, civil society organizations, and universities to promote and protect workers' rights and to improve working conditions globally through adherence to international standards.
	Fair for Life by IMO	The Fair for Life Programme offers operators who want to demonstrate their fair trade practices a solution for objective inspection and certification by a highly qualified external verifier.
	Equal Exchange Fairly Traded	Equal Exchange's mission is to build long-term trade partnerships that are economically just and environmentally sound, to foster mutually beneficial relationships between farmers and consumers and to demonstrate, through our success, the contribution of worker co-operatives and Fair Trade to a more equitable, democratic and sustainable world.
	Kosher Certification Service	The Kosher Certification Service is available for Kashrut Endorsements, Supervision, and Certification permitting the use of the Kosher Certification Service seal nation-wide, as well as internationally. The organization certifies that products are kosher.
	Fair for Life by IMO2	The Fair for Life Programme offers operators who want to demonstrate their fair trade practices a solution for objective inspection and certification by a highly qualified external verifier.
	Fair for Life by IMO3	The Fair for Life Programme offers operators who want to demonstrate their fair trade practices a solution for objective inspection and certification by a highly qualified external verifier.
	Certified Paleo Friendly	The Paleo Friendly certification includes all products that have published the Paleo Friendly stamp on their package.

	Certified Paleo	The Certified Paleo certification includes all products that have published the Certified Paleo stamp on their package.
	Paleo Approved	The Paleo Approved certification includes all products that have published the Paleo Approved stamp on their package.
	IFANCA Halal	Islamic Food and Nutrition Council of America (IFANCA) is one of the world's leading resources for halal information. Products with this certification helps halal consumers select goods, assuring them that what they buy is halal.
	Food Justice Certified	Food Justice Certified is part of the Agricultural Justice Project that's based on high-bar social justice standards for farms, processors, and retailers, including every link in the food chain from farm to table. Food Justice's approach is holistic and ensures fair treatment of workers, fair pricing for farmers, and fair business practices. Food Justice Certified is designed for all agricultural production systems, fiber and cosmetics as well as food.
	Fair Food Program Label	The Coalition of Immokalee Workers' (CIW) Fair Food Program is a unique partnership among farmers, farmworkers, and retail food companies that ensures humane wages and working conditions for the workers who pick fruits and vegetables on participating farms. It harnesses the power of consumer demand to give farmworkers a voice in the decisions that affect their lives, and to eliminate the longstanding abuses that have plagued agriculture for generations.
	NBA	The NBA certification attribute includes all products that have published the NBA (National Basketball Association) seal on their packaging.
	NFL	The NFL certification attribute includes all products that have published the NFL (National Football League) seal on their packaging.
	NHL	The NHL certification attribute includes all products that have published the NHL (National Hockey League) seal on their packaging.
	Cotton	The Cotton Logo by Cotton Incorporated certification attribute includes all products that have published the Cotton Logo by Cotton Incorporated on their packaging.
	American Diabetes Association	The American Diabetes Association attribute includes all products that have published any symbol, logo or certification relating to or claiming to be approved by or made in collaboration with the American Diabetes Association.
	Better Cotton Initiative	The Better Cotton Initiative certification attribute includes all products that have published the Better Cotton Initiative seal on their packaging.
	American Podiatric Medical Association	The American Podiatric Medical Association certification attribute includes all products that have published the American Podiatric Medical Association seal on their packaging.
	Carbon Neutral NCOS Certified	The Carbon Neutral Certified by NCOS certification attribute includes all products that have published the Carbon Neutral Certified seal by NCOS (National Carbon Offset Standard) on their packaging.

	Carbon Neutral Tree	The Carbon Neutral Tree Logo certification attribute includes all products that have published the Carbon Neutral Tree seal on their packaging.
	Certified Carbon Neutral By Carbon Neutral	The Carbon Neutral Certified by The Carbon Neutral certification attribute includes all products that have published the Carbon Neutral Certified seal by The Carbon Neutral on their packaging.
	Certified Wildlife Friendly	The Wildlife Friendly certification attribute includes all products that have published the Wildlife Friendly Certified seal on their packaging.
	Certified Natural Cosmetics BDIH Standard	The Natural Cosmetics Certified BDIH Standard certification attribute includes all products that have published the Natural Cosmetics Certified BDIH Standard seal on their packaging. BDIH is the non-profit Association of Industries and Trading Firms for pharmaceuticals, health care products, food supplements and personal hygiene products.
	Cradle to Cradle	The Cradle to Cradle Certified Product Standard guides designers and manufacturers through a continual improvement process that looks at a product through five quality categories - material health, material reutilization, renewable energy and carbon management, water stewardship, and social fairness. A product receives an achievement level in each category - Basic, Bronze, Silver, Gold, or Platinum - with the lowest achievement level representing the product's overall mark.
	EcoLogo Certified 2	The EcoLogo certification attribute includes all products that have published the EcoLogo Certified seal on their packaging.
	EcoLogo Certified	The EcoLogo certification attribute includes all products that have published the EcoLogo Certified seal on their packaging.
	Global Organic Latex Standard	The Global Organic Latex Standard certification attribute includes all products that have published the Global Organic Latex Standard seal on their packaging.
	Global Organic Textile Standard	The Global Organic Textile Standard certification attribute includes all products that have published the Global Organic Textile Standard seal on their packaging.
	Green America Certified Business Bronze	The Green America Certified Business Bronze certification attribute includes all products that have published the Green America Certified Business Bronze seal on their packaging. Businesses earn this seal after staff at Green America's Green Business Network reviews and approves their application.
	Green America Certified Business Gold	The Green America Certified Business Gold certification attribute includes all products that have published the Green America Certified Business Gold seal on their packaging. Businesses earn this seal after completing additional work beyond general certification. Their application has been reviewed and approved by the Standards and Certification Committee, appointed by Green America's Board of Directors.
	Green America Certified Business Silver	The Green America Certified Business Silver certification attribute includes all products that have published the Green America Certified Business Silver seal on their packaging. Businesses earn this seal after staff at Green America's Green Business Network reviews and approves their application.

	LYCRA Fabric	The LYCRA Fabric certification attribute includes all products that have published the LYCRA brand fabric seal on their packaging.
	NSF Sustainability Certified	The NSF Sustainability certification attribute includes all products that have published the NSF Sustainability Certified seal on their packaging.
	Soil Association Organic	The Organic Standard by Soil Association certification attribute includes all products that have published the Organic Standard by Soil Association seal on their packaging.
	Sustainable Apparel Coalition	The Sustainable Apparel Coalition certification attribute includes all products that have published the Sustainable Apparel Coalition seal on their packaging.
	EPCglobal	The EPCglobal by GS1 certification attribute includes all products that have published the EPCglobal seal by GS1 on their packaging.
	Best Aquaculture Practices Certified	Best Aquaculture Practices (BAP) is an international, 3rd party certification system that verifies environmentally and socially responsible processes under which finfish, crustaceans and mussels are produced. The initial capture of the certification started on 6/23/2015.
	Youth Trade	Youth Trade is built on a simple yet game changing idea: providing markets for goods of young entrepreneurs under the age of 35. YouthTrade was designed to align Conscious companies with Conscious entrepreneurs. The initial capture of the certification started on March 23, 2015.
	Energy Star	Energy Star attribute includes all products that present a Energy Star logo. The initial capture of the certification started on 6/23/2015.
	Limited Recycling Check Locally	This logo represents that recycling of the packaging of this product is limited, meaning 20%-60% of the U.S. can recycle this package type at curbside or municipal drop-off locations. This logo also alerts the consumer to check local recycling programs to see if this packaging is recyclable.
	Store Drop Off	This logo is seen on plastic bags, films, and wraps that can be recycled in retail store bins with plastic bags but do not qualify to be recycled in curbside bins.
	Widely Recycled	This logo represents that the packaging of the product is widely recycled, meaning at least 60% of the U.S. population can recycle this package type at curbside or municipal drop-off locations.
	Trash Only Not Yet Recycled	This logo is seen on products that have packaging material that is considered not yet recyclable because less than 20% of the U.S. population has access to this recycling material or it includes a known contaminant to common recycling systems.
	USDA Process Verified	The USDA Process Verified Program uses the International Organization for Standardization's ISO 9000 series standards for documented quality management systems as a format for evaluating program documentation to ensure consistent auditing practices and promote international recognition of audit results.

	USDA Process Verified 2	The USDA Process Verified Program uses the International Organization for Standardization's ISO 9000 series standards for documented quality management systems as a format for evaluating program documentation to ensure consistent auditing practices and promote international recognition of audit results.
	USDA Process Verified 3	The USDA Process Verified Program uses the International Organization for Standardization's ISO 9000 series standards for documented quality management systems as a format for evaluating program documentation to ensure consistent auditing practices and promote international recognition of audit results.
	Recycled Materials	This logo can be found on products that have a symbol that declares the packaging was made from 0-100% recycled material.
	NSF Gluten Free Certified	NSF Gluten-Free certification signifies the product has passed a gluten-free compliance plan and onsite inspections of the production and handling facilities have taken place. Products are tested to confirm gluten-free integrity of 20 parts per million (ppm) or less.
	NFC Gluten Free Guard	The NFC Glutenguard Certification program is a set of standards to apply to foods and/or the facilities that verifies their manufacturing processes are gluten free.
	NFCA1 Gluten Free	The NFCA, National Foundation for Celiac Awareness, Gluten-free certification signifies that the product meets standards for gluten-free safety.
	Caring Consumer PETA	Caring Consumer PETA Certification attribute includes all products that present a Caring Consumer PETA logo. The initial capture of the certification started on 9/7/2015.
	CCF Rabbit	CCF Rabbit Certification attribute includes all products that present a CCF Rabbit Not Tested on Animal logo. The initial capture of the certification started on 9/7/2015.
	MLB	MLB Certification attribute includes all products that present a Major League Baseball logo. The initial capture of the certification started on 9/29/2015.
	Dolphin Safe 2	The Dolphin Safe certification on the label represents a tuna companies pledge to compliance with laws or policies designed to minimize encirclement of dolphins or other marine mammals during an entire fishing trip, minimize accidental deaths or serious injuries of any dolphins, and minimize use of drift gill nets.
	Compostable	Compostable Certification attribute includes all products that present a Compostable logo. The initial capture of the certification started on 9/29/2015.
	Wild Caught	Wild Caught Certification attribute includes all products that present a Wild Caught logo. The initial capture of the certification started on 9/29/2015.
	Sustainable Forestry Initiative	The SFI 2015-2019 Forest Management Standard promotes responsible forestry practices. Its requirements include measures to protect water quality, biodiversity, wildlife habitat, species at risk and forests with exceptional conservation value. The standard is for any organization in the United States or Canada that owns or manages forests.
	Pro-Terra Non-GMO Certification	Pro-Terra Non-GMO Certification attribute includes all products that present a Pro-Terra Non-GMO logo. The initial capture of the certification started on 9/29/2015.

	True Source Certified	True Source Certified attribute includes all products that present a True Source Certified logo. The initial capture of the certification started on 9/29/2015.
	Cold Pressured Protected	Cold Pressured Protected attribute includes all products that present Cold Pressured Protected logo. The initial capture of the certification started on 9/29/2015.
	Radura Symbol Irradiation Treatment	The Radura is the international symbol indicating a food product has been irradiated. Irradiation is used to eliminate harmful bacteria, reduce spoilage, destroy insects, delay sprouting and ripening, and for sterilization. Irradiation is typically used on food products such as meat, poultry, fresh fruits & vegetables, and spices. The FDA is responsible for regulating the sources of radiation that are used to irradiate food.
	Underwriters Laboratories (UL)	The Underwriters Laboratories (UL) certification signifies that a product meets the standards that are used to assess products; test components, materials, systems and performance; and evaluate environmentally sustainable products, renewable energies, food and water products, recycling systems and other innovative technologies.
	Conformite Europeene (CE)	The CE marking (an acronym for the French "Conformite Europeenne") certifies that a product has met EU health, safety, and environmental requirements, which ensure consumer safety.
	World Wide Fund for Nature (WWF)	WWF's mission is to stop the degradation of the planet's natural environment and to build a future in which humans live in harmony with nature, by: conserving the world's biological diversity, ensuring that the use of renewable natural resources is sustainable, and promoting the reduction of pollution and wasteful consumption.
	Certified Angus Beef	Certified Angus Beef is the best Angus brand available. It's a cut above USDA Prime, Choice and Select. Ten quality standards, including abundant marbling, ensure every bite is exceptionally flavorful, incredibly tender and naturally juicy. The initial capture of the certification started on 10/1/2015.
	Safe Quality Food (SQF)	The SQF Code offers a solution for primary producers, manufacturers distributors, and brokers by creating one standard for food safety from farm to fork. Also, by requiring both regulatory and customer compliance, the SQF code is equipped for an ever evolving market. The intitial capture of the certification started on 10/1/2015.
	Bird Friendly Coffee (Smithsonian) Cert	The Bird Friendly Coffee logo was created by the Smithsonian Migratory Bird Center which guarantees that every coffee bean is produced organically, under high-quality shade, that tropical "agroforests" are preserved and migratory birds find a healthy haven.
	Blue Angel Certification	The Blue Angel certification promotes the concerns of both environmental protection and consumer protection. Each label specifies that the product or service focuses on one of four different protection goals: health, climate, water, and resources.
	British Retail Consortium Cert	BRC Global Standards is a leading safety and quality certification. The Standards guarantee the quality, safety and operational criteria and ensures that manufacturers fulfill their legal obligations and provide protection for the end consumer.
	US EPA Safer Choice Cert	The US EPA Safer Choice Certification ensures the use of safer chemicals in products through an evaluation of the product's ingredients. The standards take into account both consumer and environmental safety.

	Fish Wise Cert	FishWise is a program for retailers whose interested are in sustainable farming or catch methods of their seafood. FishWise defines sustainable seafood as coming from sources, whether fished or farmed, that can maintain or increase production in the future without jeopardizing the structure or function of affected ecosystems.
	Food Safety System Certification 22000	The FSSC 22000 Food Safety Management System provides a framework for effectively managing an organization's food safety responsibilities. FSSC 22000 is fully recognized by the Global Food Safety Initiative (GFSI) and is based on existing ISO Standards. It demonstrates that a company has a robust Food Safety Management System in place that meets the requirements of customers and consumers.
	Green Seal Cert	Green Seal offers third-party certification based on leadership sustainability standards that help protect the natural world and human health. Green Seal has been actively identifying and promoting sustainability to industries, purchasers and consumers, and helping organizations be greener in a real and effective way. This certification indicates that the product or service has undergone comprehensive performance and testing to be certified.
	Green Shield Certified	Green Shield Certified is an independent, non-profit certification program that promotes effective, prevention-based pest control methods while minimizing the need to use pesticides.
	Intertek Cert	The Intertek certification, or the ETL Listed Mark, is proof of product compliance to North American safety standards. The ETL Listed Mark is proof that a product has been independently tested and meets the applicable published standard.
	Roundtable on Sustainable Palm Oil Cert	The Roundtable on Sustainable Palm Oil (RSPO) developed a set of environmental and social criteria which companies must comply with in order to produce Certified Sustainable Palm Oil (CSPO). The criteria require that the plantation was established on land that did not contain significant biodiversity, wildlife habitat or other environmental values.
	Salmon Safe Cert	The Salmon-Safe certification signifies that the production of a product meets the safety standards established by Salmon-Safe as being acceptable and not harmful to the stream ecosystem.
	USDA Certified Biobased Product	The USDA Certified Biobased Product label on a product that signifies that it has been third-party tested and verified biobased content. Biobased content means that the ingredients come from renewable biological sources. Each logo will also state the percentage of biobased content within the item.
	USDA Process Verified Grassfed Cert	The USDA Process Verified Grassfed certification signifies that grass and forage shall be the feed source consumed for the lifetime of the ruminant animal, with the exception of milk consumed prior to weaning. The diet shall be derived solely from forage consisting of grass (annual and perennial), forbs (e.g., legumes, Brassica), browse, or cereal grain crops in the vegetative (pre-grain) state. Animals cannot be fed grain or grain byproducts and must have continuous access to pasture during the growing season. Hay, haylage, baleage, silage, crop residue without grain, and other roughage sources may also be included as acceptable feed sources. Routine mineral and vitamin supplementation may also be included in the feeding regimen.
	Aurora Organic Certification	The Aurora Certification signifies that a product is organic.

	USDA Inspection mark on processed products	The USDA Inspection mark on processed products signifies that the product was produced in accordance with USDA standards.
	USDA Inspection mark on poultry	The USDA Inspection mark on poultry products signifies that the product was produced in accordance with USDA standards.
	1 PET or PETE	This logo represents material made out of Polyethylene Terephthalate which is able to be recycled.
	2 PEHD or HDPE	This logo represents material made out of high density polyethylene which is able to be recycled.
	3 V or PVC	This logo represents material made out of vinyl or polyvinyl chloride which is able to be recycled.
	4 PELD or LDPE	This logo represents material made out of Low Density Polyethylene which is able to be recycled.
	5 PP	This logo represents material made out of polypropylene which is able to be recycled.
	6 PS	This logo represents material made out of polystyrene which is able to be recycled.
	7 Other	This logo represents material made out of a variety of sources which are able to be recycled. Some examples of this material include sunglasses, iPod and computer cases, certain food containers, nylon or three and five gallon water bottles.
	9 or ABS	This logo represents material made out of Acrylonitrile Butadiene Styrene which is able to be recycled.
	RPET	This logo represents that the product has been made out of recycled polyethylene terephthalate material.
	RHDPE	This logo represents that the product has been made from recycled High Density Polyethylene material. The initial capture of the certification started on 11.16.15.
	RPVC	This logo represents that the product has been made out of recycled vinyl or polyvinyl chloride material.
	RLDPE	This logo represents that the product has been made out of recycled low density polyethylene material.
	RPP	This logo represents that the product has been made out of recycled polypropylene material.

	RPS	This logo represents that the product has been made out of recycled polystyrene material.
	20 C PAPER (PCB)	This logo represents material made out of cardboard which is able to be recycled.
	21 PAPER	This logo represents material made out of mixed paper which is able to be recycled. Commonly found in mixed paper magazines and mail.
	22 PAPER	This logo represents material made out of paper which is able to be recycled.
	40 FE	This logo represents material made out of steel which is able to be recycled.
	41 ALU	This logo represents material made out of aluminum material which is able to be recycled.
	50 FOR	This logo represents material made out of wood which is able to be recycled.
	51 FOR	This logo represents material made out of cork material which is able to be recycled.
	60 COT	This logo represents material made out of cotton material which is able to be recycled.
	61 TEX	This logo represents material made out of jute which is able to be recycled.
	70 GLS	This logo represents material made out of mixed glass which is able to be recycled.
	71 GLS	This logo represents material made out of clear glass which is able to be recycled.
	72 GLS	This logo represents material made out of green glass which is able to be recycled.
	84 CPAPER	This logo represents material made out of paper and cardboard, plastic or aluminum which is able to be recycled.
	USDA Prime	USDA Prime grade is produced from young, well-fed cattle. It has abundant marbling. Prime roasts and steaks are excellent for dry-heat cooking (broiling, roasting, or grilling).

	USDA Yield Grade 1	The USDA Yield Grade 1 signifies that the beef product has the highest percentage of boneless, closely trimmed retail cuts. Yield grades range from 1 to 5 and indicate the amount of usable meat from a carcass. Yield grade 1 is the highest grade and denotes the greatest ratio of lean to fat; yield grade 5 is the lowest yield ratio.
	Star D Kosher	Star-D is provided by Star-K Kosher certification. As Star-K has a policy of not certifying a dairy product, the Star-D label is offered to those products that contain non cholov yisroel ingredients.
	Kehilla Kosher Heart-K	Kehilla Kosher California-K is certified by Kehilla Kosher. Kehilla is a west coast based kosher food certifying agency that is recognized nationally and worldwide. Both the Heart-K and the California-K are kept to the same high standard of Kashrus. Products (retail and industrial) with the Heart-K dairy symbol are always Cholov Yisroel. 	KOF-K Dairy Equipment	The D.E. designation means that the KOF-K has verified that the ingredients used in this product are all parve, but the product is produced using heat on equipment that is also used to produce hot products with dairy equipment without any koshering in between. The D.E. designation is not allowed unless the KOF-K has verified that the company's standard cleaning procedures are such that there is no concern that the residual dairy from a prior product might make the product in question dairy according to Halacha.
	1 PET, PETE, Polyethylene Terephthalate	This logo represents material made out of polyethylene terephthalate which is able to be recycled.
	2 HDPE, High Density Polyethylene	This logo represents material made out of high density polyethylene which is able to be recycled.
	3 PVC, Polyvinyl Chloride	This logo represents material made out of Polyvinyl Chloride which is able to be recycled.
	4 LDPE, Low Density Polyethylene	This logo represents material made out of low density polyethylene which is able to be recycled.
	5 PP, Polyethylene	This logo represents material made out of Polyethylene which is able to be recycled.
	6 PS, Polystyrene	This logo represents material made out of Polystyrene which is able to be recycled.

	7 Other, often Polycarbonate or ABS	This logo represents material made out of a variety of sources which are able to be recycled. Some examples of this material include sunglasses, iPod and computer cases, certain food containers, nylon or three and five gallon water bottles.
	1 PET	This logo represents material made out of Polyethylene Terephthalate which is able to be recycled.
	2 HDPE	This logo represents material made out of high density polyethylene which is able to be recycled.
	3 PVC	This logo represents material made out of vinyl or polyvinyl chloride which is able to be recycled.
	4 LDPE	This logo represents material made out of Low Density Polyethylene which is able to be recycled.
	5 PP	This logo represents material made out of polypropylene which is able to be recycled.
	6 PS no 0	This logo represents material made out of polystyrene which is able to be recycled.
	7 OTHER no 0	This logo represents material made out of a variety of sources which are able to be recycled. Some examples of this material include sunglasses, iPod and computer cases, certain food containers, nylon or three and five gallon water bottles.
	3 V	This logo represents material made out of vinyl or polyvinyl chloride which is able to be recycled.
	1 PETE	This logo represents material made out of polyethylene terephthalate which is able to be recycled.
	22 PAP	This logo represents material made out of mixed paper which is able to be recycled. Commonly found in mixed paper magazines and mail.
	20 PAP	This logo represents material made out of mixed paper which is able to be recycled. Commonly found in mixed paper magazines and mail.
	STEEL	This logo represents material made out of steel which is able to be recycled.
	Generic	The Recycle Claim includes all products making a generic claim about recycle.
	PAP	This logo represents material made out of mixed paper which is able to be recycled. Commonly found in mixed paper magazines and mail.

Canadian Dental Association

The Canadian Dental Association (CDA) Seal is a symbol that identifies products that are of benefit to the oral health of consumers.
